SMART navigation™

Contract-ready.
Already proven.

BUILT AROUND THE 2026/27 GP CONTRACT

"Clinically urgent requests must be dealt with on the same day."

SMARTnavigation is how EMIS practices deliver it.

£1,000 /year

3 months *free* – Conference Offer

What is it?

GP-designed, condition-specific triage for your reception team. Replaces duty-doctor pressure with a safe, auditable same-day pathway — reducing admin and directing every patient to the right care first time.

12-MONTH CASE STUDY

April 2024 – March 2025 • 17 practices • 152,508 patients triaged

47%

of patients safely redirected away from the GP

15%	12%	11%	9%
eConsultations	Community Pharmacy	Other clinicians (Nurse, HCA)	A&E / WIC

How it works

Age Triage
Scripts adapt questions to the patient's age.

Red Flag Screening
Condition-specific red flags guide patients away from Primary Care.

Same Day Triage
Same-day condition-specific questions book patients into same-day slots.

Pharmacy First
Filters patients into bookable pharmacist slots to prevent looping.

EMIS Write-Back
Automatic write-back — no PDFs, no manual steps.

Ambient Voice Technology
Trialling in a Leeds practice: ambient voice answering calls on SMARTnav scripts.
