SMART navigation™

EMIS Partner API — Fully Integrated

12-MONTH CASE STUDY

April 2024 – March 2025 • 17 practices • 152,508 patients triaged

47%

of patients redirected away from the GP

15% to eConsultations	**12%** to Community Pharmacy
11% to other clinicians (Nurse, HCA)	**9%** to A&E / Walk-in

£1.36M GP cost reallocated	**71,679** GP appointments avoided	**79:1** ROI for a 7,000 patient practice

Overview

- **Receptionist-led patient triage**
  Structured, GP-designed scripts guide your reception team to direct patients to the right care, first time.
- **Replaces the duty doctor system**
  Frees GPs and makes better use of the whole practice team.
- **NICE CKS aligned guidance**
  Every pathway reviewed by GP clinical leads and aligned with NICE guidance.
- **2026/27 GP contract ready**
  Safe, consistent, auditable process for same-day access and care navigation.
- **Set up in 30 minutes**
  Your reception team begins using structured triage immediately.

Safer triage.
Less pressure on your practice.
